Congratulations Hampton Students

State PARCC assessment scores became available for review by districts this month and our Hampton School District results are impressive! All of our grade level scale score averages in both reading and math were at or above state averages which is an improvement from the previous year. In almost all cases our students also scored above the national averages as well! Both students and staff members should be very proud of the published results. It validates the hard work our students and staff put in every day to improve their performance. GO HAWKS!
